## VOL. IX

GUITAR AND  
BASS STRAPS  
AND ACCESSORIES

# WHAT MAKES US UNIQUE

1

## RAS

Exclusive and Innovative RightOn! Adjustment System (RAS) featuring the largest adjustment range on the market.

2

## Grip

The best shoulder grip assured. Our lining is designed, tested and checked so that the strap doesn't slip or stick.

3

## Pick Holders

At least one pick holder built into all RightOn! guitar and bass straps.

4

## Comfortable

Only the best quality latex is used for the strap padding so you feel fresh and comfortable for the whole gig.

5

## Vegan

Eco-friendly materials in all our vegan straps, 100% free from all animal products. All made with the best raw synthetics, fabrics and natural fibers.

6

## Design & Quality

Exceptional new materials added to the guitar strap world, best Italian velvets, metallized materials and quality embroidered ribbons.

7

## Money Well Spent

Outstanding price-quality ratio for handmade straps.

# ENVIRONMENTALLY ENGAGED SINCE THE BEGINNING

*Now it's a trend. We were pioneers.*

## REC *RightOn! Environmental Commitment*

Our vision has been crystal clear from the very beginning: we want to produce the world's best guitar straps. RightOn! Straps, manufactures guitar straps with a focus on sustainability and environmental awareness. Our commitment is based on the use of recycled and eco-friendly materials, ensuring that each strap is durable and leaves a minimal environmental footprint. Explore our collection, which includes vegan guitar straps made from recycled fabrics and natural fibers, designed to fit both your musical style and your values. Join us in harmonizing your passion for music with a commitment to a greener planet.

**FOR A  
BETTER  
TOMORROW**

RightOn only uses environmentally friendly and chemical-free materials, in compliance with the R.E.A.C.H. Regulations.

**SEAQUAL®  
MARINE PLASTIC**

SEAQUAL INITIATIVE is a collaborative community fighting ocean plastic pollution, working with marine cleanup programs to transform recovered waste into SEAQUAL® MARINE PLASTIC. By choosing products made with this material, you contribute to ocean cleanup and support the circular economy.

**Global Recycled  
Standard**

The Global Recycled Standard (GRS) certification verifies the presence and amount of recycled material in fabrics, tracking the flow of raw materials from their origin to the final product. This international and voluntary standard sets requirements for third-party certification of recycled content, chain of custody, social and environmental practices, and chemical restrictions. The GRS certificate applies only to fabrics containing more than 50% recycled fibers.

**NATURAL FIBERS**

Natural plant fibers like cotton, linen, hemp, bamboo, and palm are breathable, absorb moisture, and are eco-friendly, making them popular in sustainable fashion and textiles.
